Signature _____ Date _____

**NB : Name of Pony and Name of Sire and Dam MUST include Imp, iid/iu etc. if applicable**

**Application is for DNA Test only**

**Please read Instruction for collecting hair sample for DNA Testing on next page**

## Instructions for collecting hair samples for DNA Testing by Australian Genetics Testing

Your DNA Kit will contain :

- A white card
- A resealable plastic bag
- A label with the details of the animal being tested

1. Check that the details on your label are correct.
  - a) If the name of a sire or dam does not have the full correct name you may not obtain the correct result. The names should include (Imp), (iid)/(iiu) etc. where applicable.
  - b) If the details are incorrect, contact [austsportpony@gmail.com](mailto:austsportpony@gmail.com) for a new label to be sent to you.
2. Select at least 30 mane hairs, well forward of the withers (the hair at the withers can sometimes be too fine to be easily tested).
  - a) Wrap the hairs around your finger or a comb as close as possible to the skin.
  - b) Pull firmly and swiftly upward to ensure that the roots/follicles stay with the hair and do not break off. At least half of the hairs must have roots/follicles for testing.
  - c) Keep the sample dry.
3. Place the hair strands on the front of the white card.
  - a) Make sure the follicles are on the right hand side and inside the space marked on the card.
  - b) Secure the hair by sticking the identification label over the hairs.
  - c) Trim excess hair but **DO NOT TRIM THE ROOTS OR FOLLICLES**
  - d) Insert the card into the plastic bag supplies and ensure bag is firmly sealed.
4. Sending the sample.
  - a) Place the sealed sample bag into the envelope supplied and mail to the ASPR Federal Office, PO Box 305 Eaglehawk Victoria 3556
  - b) Multiple samples can be mailed in the same envelope but each must be individually sealed in its own plastic bag.
5. Storing a hair sample.
  - a) If for any reason you are going to keep a hair sample at home, it must be stored in an air-tight bag in a DRY place. **DO NOT** put stored hair in your refrigerator or freezer as your sample will become contaminated and unusable.

**For any further enquiries please contact the Federal Registrar at [austsportpony@gmail.com](mailto:austsportpony@gmail.com)**
